FRONT-END DEVELOPER

Motivated front-end developer with a strong foundation in web technologies and a keen interest in design trends. Currently enhancing skills in C and C++ through projects, with practical experience in real-time communication protocols.

SOFT SKILLS

Communication	willingness to learn and adapt	Creativity	Attention to detail
Collaboration	Empathy	Leadership	Time management

PROJECTS

ft_transcendence(School Project)

PostgreSQL, RESTful APIs, Nodejs, NextJs, React, TypeScript

A real-time online ping pong contest website With Next.js, Nest.js, and PostgreSQL.

- Utilized SQL for database management and performed complex queries to support application functionality.
- Integrated socket.io for real-time communication, enabling seamless and instantaneous updates between the server and the client.
- Integrated RESTful APIs to enhance the functionality and interactivity of the application.
- Implemented responsive design principles to ensure optimal user experience across various devices.
- Participated in code reviews and pair programming sessions to maintain code quality.
- Managed the workflow using GitHub and collaborated with the team to deliver a successful project.

inception (School Project)

Docker, Docker Compose

- Configured secure networking, volume management, and automated deployment using Docker Compose
- Developed a multi-container web infrastructure using custom-built Docker images for NGINX, WordPress, and MariaDB

HARD SKILLS

HTML/TailwindCSS	RESTful APIs	UX/UI Assessment	Docker
NodeJs/NPM	JavaScript/TypeScript	Version Control (Git) /CLI	Docker Compose
C/C++	React/NextJs	Object-Oriented Programming	

EDUCATION

Master's Degree in IT Architecture.

1337 Coding School, Khouribga

2022 - present

Technician in Multimedia Development

Institut de Technologie Appliquée Khouribga

2019 - 2021

Technician in Business Management

Institut de Technologie Appliquee Yaacoub El Mansour, Rabat

2017 - 2019
